

STECCI

1st STECCI Conference: Preserving Cultural Heritage in Times of Climate Change

to be held on 25th – 27th September 2025. University of Applied Arts Vienna

<https://steccihorizoneu.com/>

Stone monument ensembles and the climate change impact – STECCI
ID: 101094822 HORIZON-CL2-2022-HERITAGE-01

Call for Abstracts

The EU Horizon STECCI research project, launched in 2023, is committed to creating sustainable, innovative strategies for protecting Europe's cultural heritage. The project focuses on stećci, tombstones in the Balkans, and ways to safeguard them from the effects of climate change and related threats.

The conference will present preliminary findings and results of the interdisciplinary research group. Additionally, it will offer scholars from various scientific disciplines—including conservation, environmental sciences, life sciences, tourism, social sciences, natural sciences, and humanities—the opportunity to present research related to cultural heritage conservation beyond stone conservation.

We invite international researchers to submit abstracts by **15 May 2025** on the following topics:

- Climate change impacts and vulnerability assessment of tangible heritage
- Advanced methodologies and environmentally sustainable solutions in heritage conservation
- Social and economic impact of climate change on cultural heritage
- Digitalization of cultural heritage

All accepted papers will be published in the Conference Proceedings. Selected papers will be recommended for publication in a journal indexed in the Scopus database, subject to an additional peer-review process.

*Conference Format: Hybrid (on-site in Vienna and online)
Working Language: English
Contact Person & Abstract Submission:
Dr. Tanushree Gupta, tanushree.gupta@uni-ak.ac.at*

Abstract submission form

Title of the contribution

Abstract (1500 characters, including spaces)

Author Board (as it should appear in the publication)

Author information:
